PROFESSIONAL SUMMARY

Dedicated social-service practitioner currently pursuing the Graduate Diploma in Social Work at Singapore University of Social Sciences (SUSS), combining active community casework at NTUC Health with senior leadership in technology and regulated banking. Seeking to serve as Case Manager at Selarang Halfway House (Yellow Ribbon Industries), supporting the Senior/Assistant Director (Programme) and Lead Case Manager to deliver impactful rehabilitation, psychology-informed CBP programmes, job-site visits, and meticulous statutory case documentation.

TARGET ROLE-FIT EVIDENCE & CORE COMPETENCIES

Rehabilitation & CBP Group Work	Facilitates psycho-social groups integrating motivational interviewing and cognitive-behavioural principles.
Holistic Casework & Assessment	Conducts bio-psycho-social assessments, family needs mapping, and timely referrals to FSCs and community resources.
Employment Visits & Reintegration	Conducts home/job-site visits, mediates workplace friction with employers, and monitors resident work stability.
SPS Co-Case Conferences	Synthesizes objective resident progress reviews for case conferences with Singapore Prison Service (SPS) officers.
Statutory Documentation Discipline	Honed across six years of software engineering at ST Engineering and regulated banking audits; zero log backlog.

EXPERIENCE

Programme Associate

NTUC Health - Active Ageing Centre / Jun 2026 - Present

- Facilitate psycho-social group interventions and active engagement sessions, applying person-centred communication and motivational techniques.
- Conduct holistic client needs assessments, risk screenings, and referrals to family service centres, healthcare, and financial aid schemes.
- Coordinate community partners and volunteer instructors; maintain detailed attendance records and programme evaluation logs.

Software Engineer (Generative AI)

ST Engineering, Singapore / Jan 2019 - Dec 2025

- Delivered mission-critical enterprise systems requiring structured documentation, rigorous data governance, and strict statutory compliance.
- Authored audit-ready technical reports, tracked multi-stage project milestones, and maintained precise data logs under strict SLA standards.

Director

ABN AMRO Bank, Singapore / 2009 - 2018

- Managed multi-stakeholder governance, high-consequence operations, and time-sensitive regulatory compliance in a strictly audited environment.
- Developed mature interpersonal judgement, crisis de-escalation capability, and inter-agency consensus building.

Vice President

Citibank, Singapore / 2003 - 2009

- Led operational risk reviews, stakeholder communications, and team leadership with high accountability and integrity.
